

UI Developer Assignment:

1. Implement the provided structure using HTML + CSS for desktop, tablet and mobile.
2. Add a script to show a “Back to top” button on the bottom right of the screen,
 - a. Which would be visible only once the user scroll past a threshold of 300px from document top.
 - b. Clicking on it should scroll the page back to the very top.

The following points need to be considered when coding the assignment:

- Fonts and colors need not match the design.
- The submission has to be responsive.
- Submission should work on latest browsers.
- Submission should NOT make use of any CSS framework like bootstrap, materialize, etc.
- Submission should integrate at least 3 CSS3 properties on the page.

Your submission would be reviewed based on the following points:

- Submission output quality.
- Code quality.
- Responsive layout.
- Cross browser compatibility.
- Additional optimisations.
